**Subject:** [EXTERNAL] Byhalia Pipeline Comment

As a constituent of Memphis, I believe there should not be much consideration for this pipeline. This is a terrible idea. It will be running through a community. No one can 100% keep the Boxtown community safe from any risks. If this entity approves a permit, all of you who are a part of the decision-making are ignoring that people live there. You do not have to be concerned about a pipeline running through your property. Why put that concern on someone else?
